

CHANDRA PRAKASH BATHULA

Saint Louis, MO | +1(314)-723-0206 | chandraprakash.bathula@slu.edu | [LinkedIn](#) | [GitHub](#) | [Medium](#) | [Portfolio](#)

EDUCATION

Masters in Computer and Information Sciences, Saint Louis University, GPA – 3.93/4.00

Aug 2022 – May 2024

TECHNICAL SKILLS

Programming Languages	: Python, R, SQL, MATLAB, JavaScript, Typescript
Data Analysis & Visualization	: Tableau, Power BI, MS Excel (Pivot Tables), Pandas, NumPy, Matplotlib, Seaborn
ML & Data Science	: Scikit-Learn, TensorFlow, PyTorch, Keras, Statistical Analysis, Predictive Modeling, NLP
Tools & Libraries	GitLab, GitHub, Visual Studio Code, PyCharm, Jupyter, AWS, EC2, SNS
Frameworks	: Flask, Django, OpenCV, React.JS, Vue.JS, Node.js, Express.js
Project Management & Other	: Agile, Scrum, Jira, API Integration, Data Pipelines

PROFESSIONAL EXPERIENCE

Machine Learning Engineer, *EliteNotes*

June 2023 – Present

- Developed a Python-based transcription system with 95% accuracy, integrated with a multilingual translation framework achieving 98% accuracy, and streamlined the processing of 10,000+ files daily using React.js, Tailwind CSS & Node.js.
- Optimized the data preprocessing pipeline, reducing processing time by 50%, and significantly improving the efficiency of real-time transcription and video-to-text conversion.

End User Research and Design & ITS Workflow Assessment, *Saint Louis University*

March 2023 – December 2023

- Implemented web interfaces for managing lost-and-found items and streamlined 3D printing ticket creation on campus, increasing efficiency by 40% and improving user engagement by 25%.
- Conducted end-user data analysis for Team Dynamix's iPaaS, implementing automation that reduced workload by 15% and improved response times by 30%, enhancing decision-making by 25%.

Associate Software Engineer, *Qentelli Solutions Pvt Ltd*

March 2021 – July 2022

- Collaborated with cross-functional teams to optimize recommendation algorithms using user feedback, resulting in improved user engagement metrics.
- Led the development of website interfaces with React.js and Vue.js, implementing cosine similarity and Manhattan distance methods to achieve 90% customer sentiment prediction accuracy, enhancing user engagement and experience.

PROJECT EXPERIENCE

VizFlixGpt | *JavaScript, React.JS, Redux, Google Firebase, React-Router, TMDB API, OpenAI GPT*

- Built Viz-Flix-Gpt with React, Firebase, and GPT, boosting recommendation accuracy by 50%, supporting 1,000+ users, and increasing session duration by 25% through AI-driven features and a sleek, responsive interface. [Try Here](#)

TubeFlix | *JavaScript, React.Js, Tailwind CSS, YouTube API, Google Firebase*

- Created TubeFlix, a React-based video streaming platform with Tailwind CSS, featuring advanced video browsing, dynamic search, and intelligent recommendations, improving user engagement by 25% and optimized for seamless playback across all devices. [Try Here](#)

EliteNotes Application | *JavaScript, LLM, TF-IDF, Word2Vec, React.js, Firebase Authentication*

- Engineered a React web application with seven ML-powered features, including real-time transcription and text summarization, optimizing the daily processing of 10,000+ files and enhancing system efficiency by 50%. [Try Here](#)

Apparel Recommendation System | *BoW, TF-IDF, Word2Vec, VCG-CNN, Python*

- Architected an apparel recommendation engine, processing 180,000+ images using TF-IDF, Word2Vec, and CNN, boosting product recommendation accuracy by 20% and positioning TF-IDF as the top-performing method.

New York Taxi Prediction | *Linear Regression, Random Forest, XGBoost, Python*

- Trained XGBoost models for taxi demand prediction with <12% MAPE, using data cleaning, clustering, and time-series techniques, and optimized with Linear Regression and Random Forest.

Tableau Dashboards | *Built using Tableau, Kaggle Datasets*

- Created 3 Tableau dashboards showcasing salary data, Netflix movies/series, and Amazon sales. [Try Here](#)

Farmers APP | *Figma Design*

- Orchestrated a farmers' app with climate, supply chain, and purchase features, reducing manual efforts by 40%, and serving as a rental, warehousing, and crop sales platform. [Try Here](#)

AWARDS & ACHIEVEMENTS

- Awarded Distinguished Student for Masters research project and with a top GPA of 3.93.
- Authored more than 100 technical blogs and articles on platforms like Medium and LinkedIn. [Click Here](#)
